Subject: RE: Updates on California

Hi Lisa,

David and the rest of the R. 9 management team are up in Sacramento today for another meeting with the State folks. I am hopeful that they will roll up their sleeves and get somewhere in the planning of bringing the state into compliance with regard to the Class II injection program. We are still awaiting a comprehensive plan from the state to address the various deficiencies; thus we still do not have an estimated number of aquifer exemptions that we may have to review and process.

Michele

Subject: Updates on California

Hi Dave and Michele,

I just wanted to check in and see if you have any more news on California.

Thanks,

Lisa
